Bothersome, Happy Slapping, and False Claims

Being harassed especially in public can take many forms and be covertly done by role-players who pretend to be nomral people in normal acts enjoying equal rights to the free use of the same space that the Target of Harassment is also using. These harassers will engage in Bothersome activities and that can be tailored to disgusting the sensibilities of a harassment Target or things that are more commonly resented and not tailored to the harassment target.

Interfering with pedestrian-right-of-way is one bothersome act. A Stalker sees where you are walking and will get in front of you, slow down, trip your feet, or in some way obstruct or harass your movement forward. False Claims can be part of that. Those around me will jump in front of me to create the appearance I am following them and a threat to them. Happy Slapping is causing a person to feel unhappy or discouraged. It is tough to workout in the gym aerobically. We who use the gym try good playlists, interesting courses on the monitor simulating outdoor runs, try to get good stats over time, etc., but when you are harassed or mocked in the gym it is discouraging and can even make use of the gym dangerous to your reputation if those who place themselves in the gym create the appearance (as they have done with me) that my reason for being in the gym is a fetish for peeping at women in gym clothes.

NPBCA is what I will coin as a term for Near *Progress Bar Completion Attack*. One fairly sure sign of a Rough Noise attack design to adjitate you, distract you, anger you, is when dispruptive environmental noise hits just as a progress bar upload is nearing complete, a harrassment Target is about to hit the SEND button after composing an email, people block sight the the television as the two-minute warning begins at the end of a tight football game, these kinds of just the wrong time attacks.

A similar attack in *"Why are you on my radar?*" A person whose characteristics are annoying to you pushes into your personal space and demands (persistently(the attaention of a Target of harassment.

Happy Slapping is a way to distract and interfere with a person emotionally. In my case part of that has been usng bag ladies from the street people life I have been force into the flow of to lewdly mock me or call attention to themselves in ways that are far from the norm of a person in everyday life. People with racial chips on their shoulder have been used to make racial displays around me in clearly out of place pass-byes of where I am in what are timed to unmistakably "ritualistic" patterns of stalking behavior. Even if those in the gym appear normal they may try to become problematic for you there or in any act requiring concentration. When I would jump rope on the balcony of my 1001 N. Water St. Unit 46 apartment stalkers in the gas station next to the apartment or elsewhere would furiously over-tach engines, make sudden speed ups and skid stalks, clearly trying to break the rhythm I was keeping with the jump rope. In the gym they can do the same thing making wild and mocking hand gestures while close to your workout space as thought fans trying to confuse the concentration of a placekicker in a football game.

Other abusive acts are those that are role-plays that are frauds. Fabricating evidence that frauds will be based on, impersonating my identity tor forge a confession made in my name, thanking me in vague ways for that which I assert I am not agreeing to and have not agreed to anything at all.

The core scheme is doing objectionable and fraudulent and harassing things to the Target of harassment. Not only does what is acted out by stalkers may be slanderous about you (staging what is untrue) it likely is also a Conspiracy Aganst Rights, Once a person is deemed to be following teen girls or tots around or women in gym clothes around that person (who is staged as being me) will not be welcomed to new apartment complexes, may get turned down for car loans, etc., and be blacklisted socially as the public gets emotionally manipulated and incited by the slamder campaign being staged.

SceneOfTheCrime.jpg is an image I took from my fetlife postings. I was showing that scene of the JFK assassination. The name I a now using on Fetlife that is a social media site for fetishists is Dissenter. That means in the first meaning I dissent from what is said about the Kennedy assassination by the official government accounts, But it also means that because I have dissenting opinions I have been harassed and sabotaged from going forward in areas of my life I should have succeeded in.

The Security Index was the FBI black-listing schceme in the Cold War run by J. Edgar Hoover and was the list of who not to hire, etc., for blackballing screen writers, actors, etc., This Targeting scheme is similar to that and is based on slander.

John F. Kennedy was shot from the Trainyard directly in front of the Trainyard. Colson the Hobos and others were in the trainyard. One problem. There was a grassy knoll taking up the space as Elm Street veered away from the block to get under the street level railroad.

Subversion of Health and Home and Opportunities in Life Timeline

I had great success in the gym in Alrington, Virginia USA lowering A1c from 13.3 to 4.7 in six months with fun music and enthusiasm and non-creepy workout community activiity. Part of this was staging that what I was doing in the gym was just the opposite - not the newborn health entusiast after a medical disaster - but rather a predator who showed up only because of his secretive need to peek at or photograph those in gym clothes, a pariah to the gym community.

My music varied from Convoy and C.W. McCall to softcore bondage porn to Summer of Love and techno and Hellfest music. Most playlists were copied. Anything with any race reference was omitted from my gym activities. Part of this was others discrediting my in the gym so they could assert they in their similar habbits were free of white supremacism if you call it that.

But this was not the only area I was preyed upon. Some police and others might say they also had over the decades in interest in bondage, sadomasochism, and other similar activity. Yet they did not. They found though that if they discredited me by role-play actors in a way that would get me left in the corner of the room all alone, a wall-flower, the cops could share their newfound interest or alleged long term interests with those adult entertainers they were "protecting" from me. As for my housing I made mountains out of mole hills showing my sruveeilors without intending to how even small apartments could be fixed to be comfortable and work well.

As I was being discredited and sabotaged I can show the decline I was in partially. When I left Virginia and came to Texas for the first time I was already at a loss physically because I had been in pscy wards and sheriff's detention rather than working out and workouts were throttled back by lack of nutrition, lack of clean laundry, harassing conditions, and other subversion.

Homeless again I gained weight, slept under brides and in broken glass, gained back weight, did not have diabetes medicine, ad bug bites, and other problems living in at times cold weather shelters for a few days but mostly on sidewalks.

NailedDownOldieInNowIn1513OceanDrive.jpg is when I signed my second year lease and the status of my live-work space. Man writers work from home. OnMyWayToTexasInMotel.jpg is my at Highlander Motel awaiting a flight to Texas to be in Texas for the first time to relocate to. SauveDudeDrinksFromGlassesThatDontClink.jpg is my $10 bottle of wine next to my $20 kerosene lamp on top of a 1$ puck light. This is in 1513 Unit 5 Oceand Drive Corpus Christi, Texas. SkatingAndFineArt.jpg is my TV on its custom developed TV Stand from an earlier buy with oil lamps, bug zapper in 1513 Ocean Drive Unit 5. More puck lights and some sea going rope found at the beach is visible that I used for decoration after running it through the washer and dehydrater. UnableToRentApartmentsAndUnlikeObama200.jpg is my on Skid row in dangerous condtion and no wy to write my book outside a D.C. area themral shelter was I was attemping meetins with ARC of Nova a few miles away. Returning to the D.C. Arlington Virigina area was to address this problem. Lack of gym, correct nutrition led back to original weight gain. UponEvictionSkidRowBugBites1.jpg shows the bug bites on skid row in camps with diabetes out of control.
